

Institution Name: ILSASS

A Report on Thalassemia Check-up Camp

About the event:

ILSASS organised a Thalassemia Check-up Camp for the students of the First Year (FY) programmes. The check-up was made compulsory for FY students as part of the institution's initiative to promote health awareness and encourage students to undergo necessary health screening.

The camp provided students with an opportunity to undergo thalassemia-related health screening and understand the importance of early detection and awareness. The initiative aimed to encourage students to be more conscious of their health and the importance of regular medical check-ups.

The compulsory participation of FY students ensured that the health screening reached the newly admitted students and encouraged them to take an active interest in preventive healthcare and personal well-being.

The details of the event are as follows:

Date: 11/09/2026

Time: 11:00 am onwards

Venue: ILSASS College

Objective:

- To promote awareness about thalassemia among FY students.
- To encourage students to undergo health screening and check-ups.
- To promote the importance of early detection and preventive healthcare.
- To develop awareness regarding personal health and well-being.
- To encourage students to take responsible steps towards maintaining their health.

The event addresses following Program Outcomes and / or Sustainable Development Goals:

Program Outcomes:

- **Health Awareness:** Develops awareness among students regarding thalassemia and the importance of health screening.
- **Personal Responsibility:** Encourages students to take responsibility for their own health and well-being.
- **Social Responsibility:** Promotes awareness of health-related issues affecting individuals and communities.
- **Participation and Engagement:** Ensures active participation of FY students in an institutional health initiative.
- **Responsible Citizenship:** Encourages students to develop a responsible and preventive approach towards healthcare.

Sustainable Development Goals (SDGs):

- **SDG 3 – Good Health and Well-being:** Promotes health awareness, screening and preventive healthcare among students.
- **SDG 4 – Quality Education:** Supports holistic student development by incorporating health awareness and well-being into the educational environment.
- **SDG 10 – Reduced Inequalities:** Promotes awareness and access to health screening among students irrespective of their background.
